

Town of Orland

Town Report 2009

TOWN OF ORLAND 2009

To the Citizens of the Town of Orland:

This town report is being produced without the 2010 town warrant. Due to the unknown of the school budget numbers, the Board of Selectmen have postponed the town election and town meeting until May 10th and 11th. The warrant will be published as a separate document at the end of April, 2010.

This town report is
dedicated in honor of
Mary Hauger in
appreciation of her years
of service to the
Town of Orland

TRANSFER STATION FEE'S

* Wood: 1/2 ton pickup load	(N/C = No Charge)	\$15.00
* Metal:		N/C
* Shingles: 1/2 ton pickup load		\$35.00
* Demo debris: 1/2 ton pickup load		\$25.00
* Refrigeration, per item:		\$12.00 - \$15.00
* Rugs (room size) 12x12		\$ 3.00
* Mattresses & Springs:		
Regular and larger:		\$ 5.00
Twin size:		\$ 3.00
* Couch:		\$10.00
* Stuffed Chair:		\$ 5.00
* Wooden furniture:		\$ 5.00
* TV's 27" & less (residential)		\$ 3.00
* TV's over 27" (residential)		\$ 5.00
* Computer Monitors (residential)		\$ 3.00
* Commercial TV's & Monitors		\$12.00
* Propane Tanks	20 lbs	\$10.00
	>20 lbs	\$20.00
* If it can be given away:		N/C
* If furniture is taken apart and separated (stuffing, cloth, metal, wood):		N/C
* An armful of clean wood or demo debris:		N/C

The Town's cost for disposal is:

Metal	\$7.00 per ton
Wood	\$83.00 per ton
Demo	\$90.00 per ton
Shingles	\$60.00 per ton
Refrigeration	\$12.00 per unit

For those who do not choose to Substantially Recycle, the cost for bagged garbage disposal is \$.50 per bag up to 30 gal., \$1.00 per bag greater than 30 gal, and when actual weight is known, \$40.00 per ton.

SUBSTANTIAL RECYCLING MEANS: Removing the following items from your household garbage EACH VISIT:

Newspaper Cardboard Mixed paper
Magazines Plastics Tin cans

All recycled items must be free from contaminants such as grease, oil, dirt, food, etc.

If you have any questions, please see the attendant on duty.

UNIVERSAL WASTE IS RECYCLED AT
THE TRANSFER STATION. UNIVERSAL
WASTE INCLUDES FLORESCENT LIGHT
BULBS, BALLAST'S, MERCURY
THERMOMETERS AND
RECHARGEABLE BATTERIES

RECYCLABLE MATERIALS

NEWSPAPER, MAGAZINES, TELEPHONE DIRECTORY AND CATALOGS:

Loosely deposit in yellow container. You may combine all the above items in the same container. Do not bundle or leave in a paper bag. Items should not be contaminated.

MIXED PAPER:

Includes a wide variety of light cardboard boxes such as cereal or cracker boxes, shoe boxes, foreign cardboard, pizza boxes, boxes that toys are sold in, junk mail, office paper, egg cartons. Please remove the waxed paper liner from any container, flatten and dispose of in the designated green #2 baler located on the recycling wall.

CARDBOARD & BROWN PAPER BAGS:

Only corrugated cardboard and brown grocery bags. Flatten and dispose of in the designated green #1 baler left of the trash hopper.

CLOTHING:

Must be clean and not contaminated with dirt or other substances. Deposit usable clothes in the designated box container.

LEAVES, GRASS CLIPPINGS & GARDEN RESIDUE:

Dispose of in compost pile located behind the transfer station. Please remove all plastic bags and containers. Please stop and see attendant before going down back.

PLASTICS:

Includes all plastics that have the recycle symbol on the bottom and are labeled 1, 2 or 3. Rinse clean. There is no need to remove labels. Remove all caps and rings. Do Not Include plastic bags, motor oil containers, plastic wrap, styrofoam, brittle tubs, sour cream or cheese containers or plastic utensils. Dispose of the plastics in the yellow container marked for plastics on recycling wall.

GLASS:

Effective March 27, 2006, glass will no longer be recycled and therefore does NOT need to be separated from household garbage.

NOTICE TO ALL USERS

Substantial Recycling means that you separate the required materials EACH time you visit the facility.

TIN CANS:

Please rinse clean and flatten. There is no need to remove labels. Include covers and rings from other containers. Included aluminum items such as foil pie plates, pans or TV dinner containers. No motor cans. Dispose of the cleaned items at the end of the green table on the recycling wall.

METAL ITEMS:

There is no charge for metal items, except for:

Propane Tanks 20 lbs \$10.00
>20 lbs \$20.00
Refrigerators \$12.00
Air Conditioners, water coolers, etc. \$15.00

ITEMS NOT ACCEPTED:

Automobile gas tanks unless cut in half, unrinsed containers that contain a hazardous waste, and whole 50 gallon drums.

MOTOR OIL:

Regular used motor oil ONLY. See Attendant for disposal. Limited to 5 gallons per visit from containers no larger than 2 gallons.

MOTOR VEHICLE BATTERIES

There is no charge to dispose of m/v batteries. Batteries are to be placed in designated container.

DEMO DEBRIS:

1/2 ton pick-up load \$25.00 and limited to two loads per household.

household.

CLEAN WOOD:

Includes brush, trees no larger than 6" diameter, lumber no longer than 8' in length. Limited to two loads per household.

ASPHALT SHINGLES:

Shingles must be free of wood and paper. Limited to two pickup loads per household. No asbestos shingles will be accepted.

In the past, no one thought of recycling computers and other electronics. But these days engineers have taken notice that electronics usually contain a wealth of valuable materials. Plus, recycling almost always means lower net carbon emissions that would normally be emitted while manufacturing a new product.

Finally, electronics are made with a sizable amount of lead, cadmium, brominated fire retardants and plastics that can leach toxic breakdown products — that's stuff no one wants in their water supply! Recycling electronics is good for the environment and our local communities.

If you have any questions about whether your electronic device can be recycled at the Buck-sport Transfer Station, feel free to contact us at 469-7496.

Nationally, approximately 2.8 billion pounds (1.4 million tons) of electronic equipment were recycled in 2006, including 65 million units of computer equipment (CPUs, monitors, and printers). The electronics recycling process yielded 1.3 billion pounds of recyclable materials, more than half of which were metals. Consumer electronics alone are now considered to be approaching more than 3 million tons generated annually.

ANNUAL REPORT TO THE TOWN OF ORLAND

Message from Senator Richard Rosen

Dear Friends and Neighbors:

Representing the people of Orland is a rare privilege. As your Senator, I carefully study the issues so that I am able to cast an informed vote that reflects the best interests of the state and our community.

These are difficult economic times for your government and for all Maine people. We faced many challenges in the 2009 session of the 124th, and those challenges continue into this year's session of the Legislature. State revenues have continued to fall far below projected amounts, resulting in yet another massive budget shortfall of \$483 million.

I know that you and your family are no strangers to the types of tough decisions we must make here at the State House. There was no stimulus package for you, and every day you make the same tough choices; prioritizing your wants and needs, cutting your household budget and finding savings here and there.

As so often is the case, with every negative, there is a positive. As challenging as it has been, this historic economic downturn has brought renewal to many of our communities and families. We appreciate, even more than ever, simple pleasures such as spending more time with family, friends and neighbors.

This downturn also gives Augusta an opportunity; the opportunity to look closely at state government and engage in the responsible budgeting and decision-making process that Maine people want and expect from their elected officials. If we have learned anything from the economic upheaval, it is that spending unwisely in the good times only makes it more difficult to weather the bad times. As difficult as these times are, they provide the catalyst to force the tough decisions that will "right-size" state government.

I will continue to seek long-term sustainable change that will position Maine to emerge from this downturn, stronger than when it began.

It truly is my pleasure and honor to serve as your voice in the Maine Senate. If you are having an issue with state government please feel free to contact me. I would be happy to help in any way that I can. You can reach me in Augusta at 287-1505. You can also visit my website at senatorrichardrosen.com for more information on what's going on in Augusta and in our district.

Sincerely,

Richard Rosen
State Senator

Report to the Citizens of Orland

2009

Dear Friends and Neighbors,

Thank you for your support in the November elections. It is an honor to serve as your State Representative in Augusta. During the District 41 campaign, I visited many homes and businesses throughout Orland. I attended town meetings, hearings, and community benefits. At all these events and gatherings, I was greeted by friendly and caring people who want the best for our wonderful community. Thank you for the strong support that you showed me. I am humbled by the responsibility you have given me and I look forward to working hard on your behalf.

The people of Maine are facing numerous challenges. Our state economy is a reflection of the national economy and it is a unique and trying time for our nation and the world. The State Legislature now faces the challenge of building a new biennial budget with unfortunate constraints and frugal funding. I assure you that the Legislature is taking its jobs in crafting this new two-year budget very seriously. We will be searching for ways to keep our social safety nets and vital services in place for those who need them. At the same time, there will be difficult decisions and cuts to existing programs.

I promise to continue working hard on behalf of all of the residents of Orland and District 41. I will advocate for legislation focused on the needs of those who are struggling and legislation that will encourage job development and growth. I will remember micro-businesses and will support funding for programs in which they can participate. I will be an advocate for Orland in every area that will promote the greater good, including health care reform.

I am always glad to hear from you. Please feel free to contact me anytime and I invite you to come to the Maine State House for a visit with family and friends or as a school group. I will meet and greet you at the State House and arrange for you to have a tour, which you should follow up with a visit to our Maine State Museum, which is just across the parking lot from the State House. If you would like to participate in a legislative session you could: sing or play the National Anthem, attend as a pastor and offer the prayer of the day, serve as the physician of the day, and if you are between the ages of 8 and 18, you could be an honorary House Page. Please let me know. I am proud and honored to be your Representative to the Maine State House.

Very truly yours,

Rep. Veronica Magnan

Dear Orland residents and friends,

This past year, Mainers have faced many challenges. Yet as I travel across our state, I am inspired by the stories I hear of people coming together to help their friends, families and communities. I also continue to hear from many people who are worried about losing their jobs, heating their homes, putting food on the table and getting affordable health care. Although there are a few hopeful signs that our nation's economy is beginning to recover, there is much more we need to do to help Maine's economy.

As an example, I am very pleased that late last year the newly-created Northern Border Regional Commission received funding and will now be able to start working to create economic development and job creation projects in the most economically distressed areas of Maine, New Hampshire, Vermont and northern New York.

I am also pleased that Congress authorized a pilot program that would exempt Maine's interstate highways from the 80,000 pound federal truck weight limit and help get larger trucks off our back country roads. This is a good first step in addressing this issue, and I will continue to work to find a lasting solution that will improve road safety and increase productivity.

Our country has also taken important steps forward in protecting and improving veteran's benefits and health care. In October, I joined a number of my colleagues at the White House as President Obama signed the Veterans Health Care Budget Reform and Transparency Act. The legislation, which I helped introduce earlier this year, authorizes funding for the Department of Veterans Affairs (VA) medical care programs one year in advance of the start of each fiscal year, helping to end decades of uneven budget cycles and funding shortfalls that have contributed to the rationing of VA health care and inadequate access to treatment for our veterans.

Finally, my staff and I remain committed to providing quality constituent services whether it is help with cutting through red tape or a question about federal programs and benefits. If my office may ever be of assistance, please do not hesitate to contact me at my Bangor office at 207-942-6935 or by emailing me through my web page at www.house.gov/michael. While on my website, I also encourage you to sign up for occasional e-mail updates on issues important to Mainers.

Thank you again for the opportunity to represent you in Congress.

With warmest regards,

Michael H. Michaud

Town of Orland
PO BOX 67
Orland, ME 04472

Dear Citizens of Orland:

In 2009, I began my third term in the United States Senate. I remain deeply honored by the trust the people of Maine have placed in me, and I appreciate this opportunity to report on some highlights of my recent work in the U.S. Senate.

A significant accomplishment came in December when the President signed transportation legislation that includes a provision I authored to create a one-year pilot project to allow trucks weighing up to 100,000 pounds to use federal highways in Maine. This is moving heavy trucks off Maine's secondary roads and out of our downtowns and onto our modern, multi-lane, controlled access highways for one year, during which time a study of the impact on safety, commerce and road wear-and-tear would be conducted. In addition, this change helps to level the economic playing field, as neighboring states already have this exemption.

My appointment in early 2009 to the powerful Appropriations Committee has allowed me to have greater influence on the funding of priorities that are important to Mainers, such as shipbuilding, health care, education, and transportation, while also giving me the ability to continue pressing for the elimination of wasteful spending that exacerbates our federal deficit.

As a member of the Senate Armed Services Committee, I continue to be an advocate for Bath Iron Works, the Portsmouth Naval Shipyard, the Maine Military Authority in Limestone, and the many other defense contractors and institutions in Maine that contribute so much to our national security. In August, I traveled to Iraq and Afghanistan and had the opportunity to meet with many service men and women from Maine. My conversations with them were the most important aspect of my trip to the region. Our troops are brave, dedicated, compassionate, and highly skilled. I will continue to work hard to ensure that they have the support their difficult missions require.

Perhaps the greatest challenge facing our nation continues to be the struggling economy, and among my highest priorities are getting our people back to work and our economy back on track. That is why in early 2009 I joined a bipartisan effort to pass the American Recovery and Reinvestment Act. The bill contains robust infrastructure spending, significant funding for state aid and education, and tax relief for low- and middle-income families and for small businesses. As a result of this bill, Maine is receiving approximately \$133 million for highway investments, more than \$50 million combined for the Clean Water and Drinking Water State Revolving Funds, and \$70.5 million for weatherization and energy efficiency projects.

Energy policy remains another great challenge: America's reliance on foreign oil harms our economy, our security, and our environment. Meeting the challenge of developing energy alternatives will provide great opportunities for Maine to build an economy for the future, with new industries and thousands of good jobs. This endeavor received a significant boost last October when the U.S. Department of Energy announced an \$8 million grant for deepwater offshore wind research at the University of Maine, and Congress also approved \$5 million I sponsored for the Maine Offshore Wind Initiative at UMaine. This January, the U.S. Department of Commerce announced a \$12.4 million laboratory construction grant for the University of Maine. I strongly advocated for these projects because, with some of the strongest winds in the nation off our coast and some of the best engineers in the field, Maine has great potential as an ideal location for offshore wind projects and

can take the lead in the development of clean, renewable, and affordable energy for America. Estimates are that development of five gigawatts of offshore wind in Maine – enough to power more than 1 million homes for a year – could attract \$20 billion of investment to our state and create more than 15,000 green energy jobs that would be sustained over 30 years.

Of course, this past year brought not just successes. A disappointment was the failure of Congress to produce bipartisan health care reform legislation that would contain soaring costs and provide more choices for struggling families and small businesses. I am deeply concerned about the nearly \$500 billion in Medicare cuts included in the bill.

It is fiscally irresponsible to raid Medicare – a program which already has long-term financing problems – to pay for a new entitlement program, particularly at a time when the number of Medicare beneficiaries is on the rise. The bill would saddle Maine's hospitals with some \$800 million in Medicare cuts over the next ten years, and could push one in five hospitals, nursing homes, and home health providers into the red. Ultimately, such cuts could jeopardize access to care for millions of our nation's seniors.

As the Ranking Member of the Senate Homeland Security Committee, I am committed to ensuring that our nation is as safe as possible and that government is better prepared to respond to disasters. The Christmas Day terrorist attempt to detonate explosives on an aircraft reminds us of the dangers we continue to confront. My homeland security priorities include further strengthening our defenses against terrorism and providing our first responders with the resources they need.

On March 19, 2009, I reached a personal milestone when I cast my 4,000th consecutive roll call vote, continuing a record of participating in every single roll call vote since I first came to the Senate in 1997. I am grateful for the opportunity to serve Orland and Maine in the United States Senate. If ever I can be of assistance to you, please contact my Bangor office at 207-945-0417, or visit my website at <http://collins.senate.gov>. May 2010 be a good year for your family, your community, and our state.

Sincerely,

Susan M. Collins
United States Senator

A Class at Crane's corner school—late 1800's

Report of the Board of Selectmen

To the Citizens of the Town of Orland;

To say the least, 2009 has been a challenging year for your town officers.

The biggest change came with the establishment of RSU #25. The ratification of the process resulted in not providing tax bills at our usual time. This caused us to come close to borrowing operating money for the first time in over 25 years. We have made changes to the town meeting and town election dates in order to give you a better picture of the complete warrant that will be voted on.

The new bridge in the village caused some inconvenience to travelers, as well as to the businesses. However, the end product was worth it.

We finished a new plot plan for the Evergreen Cemetery on the Upper Falls Road and have begun to sell lots there. More work needs to be done in all of the town cemeteries.

The Selectmen are considering discontinuing the use of the old town hall. The building has a severe mold problem along with other maintenance issues. In order to save money, we will be asking voter input on that decision.

The Selectmen have been approached by Verso Paper Co. in Bucksport to take ownership of the dam in the Orland village. There are many questions and concerns about this proposal. Public hearings will be held as this progresses.

The costs associated with maintaining our roads continues to go up drastically. As a result, we are having to do more with less.

We realize that increasing taxes is not something we want to see; however, Orland is not loaded with frills. We will continue to spend wisely and still provide the services you have come to rely on.

As always, we wish to thank our fellow town officers, the road crews, and the committees and boards for their hard work.

Respectfully submitted,

S.Wayne Ames, Chairman

Ralph Gonzales

Edward Rankin, Sr.

Report of the General Assistance Administrator

The Selectmen adopted the General Assistance Ordinance (prepared by Maine Municipal Association, August 2005) on the 12th day of October 2006. The Appendices (A-C) are revised each year by Maine Municipal Association, which increases the amounts allowed. The Ordinance helps those in need and directs them to be responsible by living within their means. Applicants must show that they are attempting to improve the present situation which has caused them to seek assistance.

In 2009, we received 24 applications for assistance and assisted 12 individuals; with 1 of the 12 being a repeat. Of those 12 cases, we paid \$1,823.92 for housing, \$1,231.38 for heat, \$391.12 for electricity, and \$229.55 for food. The total cost for the 12 cases was \$3,675.97.

For 2009, \$8,351.00 was carried over from 2008, \$1700.00 was appropriated for 2009, \$3675.97 was spent, \$1937.77 was reimbursed by the State of Maine and \$325.00 was reimbursed by one of the clients. That leaves a balance of \$8,637.80 in the account.

With such a poor economy, we received 3 less applications, processed 1 less application and spent \$1,159.17 less than we did in 2008.

Respectfully submitted,
Ralph Gonzales
General Assistance Administrator

Report of the Town Clerk & Tax Collector

As in past years, I wish to thank the citizens of the Town of Orland for their support in 2009. As I begin the 20th year of working with the town, the Clerk's office strives to give the citizens of the Town of Orland the best service possible. We can not always answer a person's question; however, we usually can refer the person to the appropriate department.

In the clerk's office, we continue to use the electronic dog licensing program. The State now requires veterinarians to send them copies of rabies vaccinations, the State sends them to us, and we are required to follow-up with the licensing. We licensed 365 dogs in 2009. Please remember that a state-mandated \$15.00 late fee applies to re-registrations of dogs after January 31st of any given year.

We are still working with the MOSES program for hunting/fishing licensing and recreational vehicle registrations. The licenses are completed and the State knows instantly that a customer has their license and/or registration. In 2009, we registered 133 snowmobiles, 145 ATVs, and 358 boats. We also processed 653 recreational licenses.

We are also continuing to work with the central voter registration program. It helps us keep the voter list more up-to-date and helps us track voter participation.

With times becoming more difficult, we understand that finding the money to pay property taxes is not always easy. ***Please be aware that taxes can be paid on a monthly basis instead of coming up with the lump sum in September. If you have fallen behind in your taxes, please consider making a payment arrangement with the Board of Selectmen. These arrangements call for a mutually agreed upon amount to be paid monthly.*** Call the office if you are interested.

Respectfully submitted,
Connie L. Brown, CMC
Town Clerk & Tax Collector

Report of the Assessors

The Town's total valuation went up from \$185,723,345.00 in 2008 to \$187,596,415.00, in 2009. New listings include 7 new homes, 0 mobile homes, 3 seasonal properties and 5 business expansions and 6 new commercial property.

The Assessors processed 115 real estate transfers from April 1, 2008 to March 31, 2009. Your tax bill showed that due to State Municipal Revenue Sharing and State Aid to Education, each bill has been reduced by 28%.

The Maine Revenue Service issued an update pertaining to Property Tax Abatement and Appeals Procedures, in August of 1993. If a taxpayer believes that the valuation of his or her property is too high, the taxpayer's only remedy is to submit a written application to the Assessors for an abatement within 185 days of the commitment date of the tax in question, stating the grounds for abatement.

Homestead Exemption Applications are available at the Town Office for the 2010 tax year. If you did not qualify last year, you may reapply. If you did qualify last year, you do not need to apply again. We granted 596 Homestead Exemptions for the year 2009. Due to Legislative Changes, in 2006, the Homestead Exemption is now \$13,000.00 before adjustment to the State Certified Ratio, however, the state only reimburses 50% of that amount.

The mil rate for the 2009 tax year increased from .0123 to .0149 mostly due to the costs of joining of the Regional School Unit.

The Assessors will be in session April 1, 2010 to provide Declarations of Estate Forms. Reminders of this date will appear in local newspapers and will be posted at the Town Office.

Respectfully submitted,
Betty J. Chavaree, Chairman
Mary E. Hauger
Geoffrey N. Hauger

One of the Orland Schools—Class of 1920

Orland Recreation Department

As is usually the case, the past year has come and gone rather quickly. However, it was another successful year for Orland Recreation with a lot of participation in various programs from youngsters in the Orland/Bucksport area.

In the spring, there was a large turnout for both the farm league and t-ball baseball programs. The farm league, coached by Bart McGraw, Ray Wight, Dale Tozier, Ed Hatch and several other volunteers, saw around thirty 2nd through 4th graders come out to fine-tune their basic skills, as well as learn some new ones. This program will be looking for more volunteers this year; as some of the coaches are moving one. Contact Bart McGraw for more information. The t-ball program saw 20 + ball players step onto the field, many for the first time. This program was masterfully coordinated by Mike and Corinne Malenfant, with the help of numerous volunteers.

This past fall, soccer was in session once again. The turnout was so good, with over 40 kids, that the younger group had to be split in half! It was great seeing so many smiling little faces every Saturday morning. We hope to continue this trend next fall, with even more kids.

Basketball season just wrapped up for us. The numbers in this program were a little down this year; with around 45 hoopsters taking the court. Fun was had by all and the kids walked away with many skills and drills to work on. We were hoping to bring back cheering this year, as well, but have not been successful in finding a coach. If there is anyone out there who knows about cheering and would live to spend some Saturday mornings with a great bunch of kids, please contact Ed Hatch.

In the fall, Orland Recreation passed out a questionnaire through the school. In it, there were questions regarding likes and dislikes of the program, room for suggestions, and ideas for what people would like to see added. We were very happy with the response and are currently working on ideas to add to our programming, including a community dance,

adult co-ed volleyball (starting in mid-March - call Ed Hatch for details), and field trips to the Y and/or Great Skates. We loved the feedback and want to thank everyone who filled out the questionnaire. If you didn't get a chance to and would like to, stop by the Orland School for a copy.

This program wouldn't be possible without the support of the community. We appreciate all of the participation, kind words, and helping hands. Those helping hands are always needed and we are asking that you lend yours to being a part of Orland Recreation. We are always looking for new members. You don't have to be a coach, a planner, or an organizer. Sometimes it is just the new ideas that make all the difference. We hope you have a great 2010.

Respectfully submitted on behalf of the Orland Recreation Committee,

Ed Hatch

One of the Classes at East Orland School

Orland Fish Committee 2009

On March 30th, both the Orland and Alamoosook Lake fish ways were open. Verso Paper was repairing the fish way at Toddy Pond, so it was opened later in the spring. Jake Sutherland and his crew were busy working on installing the fish trap below the Orland dam. The river was very high, due to a great deal of spring rain.

On May 3rd, the first of the alewife run was caught in the trap. The river was very low because Verso was getting ready to install the splash boards on the Alamoosook dam. On May 4th, when the splash boards were put in place, the water was 2 inches below the top of the dam. But on May 5th, there were a lot of fish netted in the town trap.

As you all may remember, the last of May was the start of a very rainy June. On June 18th, part of the trap was washed out; but, Jake still managed to trap some fish. Even after the closing of the alewife season, Jake couldn't get the hedge out for a week, due to the high water levels.

The beaver continue to be a nuisance at the Toddy fish way. Many hours are spent cleaning out branches and twigs that the industrious critters have cut and placed in the fish way; thus plugging it up, sometimes nightly.

Despite the wet spring and high water levels, the run was successful. The town profits were \$4,581.20. Jake earned \$22,906.00, before his expenses. 1762 bushels or 176,200 pounds were sold at a rate of \$13.00 per bushel.

A special thanks to Verso employee, Wesley Shute, who maintains the dams. Thank you also to the members of the Fish Committee.

Respectfully submitted,
Robert Mushrall, Chair

Orland Historical Society & Museum 2009

The past year was an excellent, yet challenging one for the society. We had a successful fund drive to do some repairs to the building in the village. We opted, for the time being, to do necessary repairs to keep the building open and accessible for the short term.

The gift of a piece of land behind the post office from John Wardwell has been finalized. We have engaged the services of an architect to give us a conceptual drawing for a new building. No final design has been chosen yet. Once a design is decided upon, we will begin funding projects for that building.

Keeping Orland's past alive is the goal of the society and with your support, we will make it happen.

I wish to thank all the members for their support and hard work. I also encourage folks to get involved and join the society.

Respectfully submitted,
Wayne Ames, President

One of the Classes at East Orland School

Report of the Code Enforcement Officer

To the Citizens of the Town of Orland:

There were 37 permits issued by the CEO in the shoreland zone as follows:

New Residences & camps	6	Garages, Barns, Boathouses	2
Residence Additions	2	Accessory Structures	7
Move Camp	2	Frost Wall	1
Docks	3	Decks and Porches	1
Rip Rap	3	Sheds	2
Cutting and Clearing	2	Gazebos	2
Piers, Ramps, Floats	1	Handicap Ramp	1
Steps to Shore	2		

Once again, a big thank you to Wayne, Ed, Ralph, Connie, Suzanne, the Assessors, my Planning Board and Board of Appeals and Gerry Guse. They make my job easier.

A reminder that all construction in the Shoreland Zone (within 250' from the shore), commercial structures and subdivisions need a permit. Please contact me at 469-3186 for building applications, forms or information. My office hours are 2 - 4 pm, Wednesdays at the town office. You may also call me at home at 326-4766.

Respectfully Submitted,
Judith Jenkins, CEO

Report of the Orland Planning Board

The year 2009 brought less activity to the Planning Board than 2008. Projects approved were 5 site plan reviews, 1 subdivision change, 1 cell tower/site plan review and 1 shoreland zoning permit issued at Hot Hole Pond, which was later denied by the State of Maine.

Several shoreland zoning applications were reviewed and given to the Code Enforcement Officer to issue the permit and necessary paperwork.

The fees collected for 2009 totaled \$193.20.

The Shoreland Zoning Ordinance update done in 2008 received final approval by the town meeting in April and later approved by the State Department of Environmental Protection. The Shoreland Zoning map updating has been worked on all year. It is continuing to include revisions mandated by the State of Maine Legislature.

The Board has seen several changes in its members this year. Gerry Guse and Lyman Conary did not seek reappointment and were replaced by Alternate Clayton Duplessis and, new Board Member, Sandra Knox. Nancy Wasson was appointed to the Alternate Board Member vacancy created by Clayton Duplessis. Later in the year, G. Richard Berry resigned and Nancy Wasson was appointed to fill his position. Gerry Guse served the Board since 1988, G. Richard Berry since 1997 and Lyman Conary, as an alternate since 2001. Thanks go to all for their dedicated service.

Currently, the Board is studying a wind energy facility ordinance that may be useful for the Town of Orland. It has been prepared by the State of Maine. At this time, there is a study going on for wind power in the Dodge Hill area of Orland.

Have a good 2010 and be glad you live in Orland. Keep smiling all.

Respectfully submitted
Millard Clement,
Chairman of the Planning Board

Application Procedures

In order to provide information to anyone who is planning a project (new or old) in Orland, outlined is a brief description of those permits, which may be required. Unless otherwise noted, applications are available at the Town Office. A \$5.00 fee is charged for copies of any of the ordinances.

SITE PLAN REVIEW PERMIT: This permit is required for all development proposals for establishment, alterations, or substantial enlargements of commercial, retail, industrial, institutional buildings and multiple family dwellings consisting of three or more units. Permit approval must be obtained from the Planning Board. A fee is charged.

SUBDIVISION REVIEW PERMIT: Subdivision review is required whenever three or more units are developed or any one lot is divided three or more times in any five-year period. Approval for a subdivision must be obtained from the Planning Board. The application fee is dependent upon the number of units or lots.

SHORELAND ZONING PERMIT: This permit must be obtained by anyone who proposes to construct, modify, enlarge, or change the use of any building located within 250' of the shoreline or any other area as designated on the official shoreland zoning map, which is located at the Town Office. This permit must also be obtained by anyone who proposes any changes to the land, such as clearing, erosion control, etc. within those designated areas. Permits are issued either by the Code Enforcement Officer or the Planning Board. The Code Enforcement Officer makes the determination as to who issues the permit. Whenever a shoreland zoning permit is requested for a new or expanded building, a copy of a plumbing permit must be attached to the application.

FLOOD HAZARD AREA PERMIT: This permit must be obtained by anyone who plans to construct, relocate, replace, enlarge, or modify any building which is located in the Special Flood Hazard area as designated by the National Flood Insurance Act of 1968, such map being located at the Town Office. The Code Enforcement Officer issues this permit.

PLUMBING PERMIT: This permit must be obtained by anyone who is going to do any type of plumbing either on the interior or exterior of a new or existing building. The permit must be obtained from the Plumbing Inspector. A permit fee is charged and the amount depends on the number of fixtures, which will be installed. Once the permit has been obtained and the work completed, the Inspector must be notified so that he can inspect the work done. Plumbing permits are valid for twenty-four months after issuance. If a plumbing permit is being requested for the purposes of installing a subsurface disposal system, the applicant will be required to obtain the services of a certified soils scientist to design the system prior to seeking the permit. The Plumbing Inspector can be contacted for suggested names of certified soils scientists who serve the Orland area.

HIGHWAY ENTRANCE PERMIT: This permit must be obtained by anyone who is proposing to construct any driveway entrance or approach within the right of way of any town road. This is also true if the grade or location of any existing driveway entrance will be changed. Applications are obtained from the Road Commissioner. A similar permit has to be obtained from the Department of Transportation if the new entrance is proposed within a state owned right of way.

ELECTRICAL SERVICE FORM: Anyone who is planning to install a new electrical service will be required by the utility company to obtain a signed form from the Code Enforcement Officer indicating that the property on which the improvements are to be made is not in violation of subdivision requirements and a shoreland zoning permit has been obtained if required. There is no fee for this permit. Application forms may be obtained from the utility company.

WIRELESS TELECOMMUNICATIONS FACILITIES PERMIT: This permit is required for the location, construction and expansion of wireless telecommunication facilities. Permit approval must be obtained from the Planning Board.

NOTE: The above is solely informational and is not meant to represent any ordinance or state law in its entirety. Other state and federal regulation may apply to the same project. It is your obligation to obtain all other necessary permits before commencing work.

Report of the Animal Control Officer

Selectmen and Citizens of Orland:

The following is a list of complaints received from Orland in 2009. I am glad to have continued as Animal Control officer for another year. This has been a fairly busy year for complaints. I have had some confirmed reports of rabies in the area from animals tested in other towns. Please keep your pets' vaccinations up to date with your Veterinarian.

Respectfully submitted,
Robert L. Gross, Animal Control Officer

TO THE RESIDENTS OF ORLAND, MAINE:
GREETINGS,

I am pleased to provide you with a summary of the events our Sheriff's Department was involved with in your town in 2009. Although most incidents were as a result of citizens from your town calling for assistance or to report a crime, some, such as the service of subpoenas, were initiated by our office. Also, remember this summary only reports those incidents we were involved in and does not include any activity by the Maine State Police.

Abandoned Vehicle	2	Lost or Found Property	1

Mental Health	9	Paper Service	7
Trespassing	3		

Sincerely,

Lt. Christopher J. Coleman
Maine State Police Troop J

Report of the Fire Department

One of the last calls the Orland fire department answered in 2009 could have been catastrophic had it not been for the quick thinking and quick actions of our first responders. A diesel delivery truck driver lost control on snow covered roads and left the roadway, rolling over and coming to rest less than 100 feet from a major stream that runs into Patten Pond. The tank of the truck had detached from its mounts and fuel was leaking onto the ground and making its way towards the stream. Orland Fire Department members were able to divert and capture most of the fuel using a variety of methods and also deployed oil absorbent booms across the stream to catch any excess oil that might get through. Officials from the state of Maine Department of Environmental Protection had resounding praise for our department for quick and effective action in minimizing environmental damage to the local watershed. Several department members spent over 12 hours on the scene assisting with cleanup efforts.

Our department members are a wonderful mix of volunteers who excel at handling all kinds of emergencies from fires to car accidents, injured or lost people, power line emergencies, water and ice rescues. You name it, when people need help we are just a phone call away. We spend a great deal of time training and practicing our response techniques.

Over the past year, we have concentrated on upgrading our communication system. We are now well prepared for the upcoming FCC mandated narrowband communications change. We have also extensively updated our vehicle extrication equipment. Freeing trapped occupants from vehicles has always been challenging for the fire service; but, in recent years, with the introduction of Hybrid vehicles, multiple airbags and high strength steel components it has made our jobs even more challenging. Our recent extrication tool upgrades, paid for through your tax dollars and your generous donations, are of the latest technology, giving us the tools to keep up with the vehicle systems and components of today and tomorrow.

We are committed to safety in the fire service and on top of our training and education efforts, we have acquired backup cameras for all of our front-line fire apparatus. These will enable us to respond and operate our vehicles with an increased level of safety and confidence.

Home heating appliances and affiliated components are one of the leading causes of fires in the home. We urge you to have your chimney cleaned and inspected by a certified chimney professional at least once a year. Insure that your heating appliance is properly installed and maintained, with appropriate clearances as per manufacturer's recommendations. In the past several years, we have responded to a number of fires started by woodstove ashes which were disposed of improperly. When cleaning out your ashes, always use a metal container and immediately remove them from your home and dispose of them in a safe place away from buildings.

When you call for help, make sure we can find you quickly. We are still finding unmarked residences and businesses. Please post your house number so it can be seen easily from either direction from the road. Use numbers large and clear enough to be easily read from a responding vehicle and contrasting in color to the background and/or reflective.

If you have questions or need help posting your house number please call us.

We hope that everyone in town has working smoke detectors in their homes. We often find, however, that some folks neglect to keep fresh batteries in their detectors or have no detectors at all. If you or anyone you know needs help checking, purchasing or installing smoke detectors please contact us at the fire department. We will be glad to see that you get the help you need.

George Stevens Academy

23 Union Street
Blue Hill, Maine 04614

George Stevens Academy has served the local community for more than two hundred years with a tradition of academic and extracurricular excellence and community spirit that contributes substantially to the unique character of this area. Founded in 1803 as Blue Hill Academy, George Stevens Academy is an independent school serving local publicly-funded students as well as international and privately paid tuition students.

GSA's comprehensive program of studies offers more than 100 course offerings each year in ten different departments taught by experienced and dedicated teachers.

George Stevens Academy welcomes community support and participation. The Board of Trustees is involved in a planning process to improve the program, support the staff, increase professional development, provide new buildings and renovate existing facilities. Please contact Rob Clapp or call the GSA office if you would like to be involved in any of our projects.

Finances

The State has set the maximum tuition rate for this year at \$9154.37. Our annual operating budget is \$3,600,000. We depend on a strong fund-raising effort to meet our expenses. In FY2009 the Annual Fund raised over \$200,000 in unrestricted gifts and more than \$100,000 for restricted purposes. The FY2010 goal is \$280,000 in unrestricted donations. Our ability to offer programs and services not funded by the state tuition is a distinct advantage of an independent school.

The Annual Fund is successful thanks to the many, generous contributions of GSA's alumni, parents & friends. In FY2009, more than 500 donors contributed to this community school.

For up-to-date information about GSA, our programs, and what's happening on campus, visit our Web site at www.georgestevensacademy.org. Thank you!

John Greene,
Headmaster

Superintendent's Report

It gives me great pleasure to be writing to the citizens of the Town of Orland as your superintendent of schools. I am pleased to report the students of Orland are being well served by the education provided by RSU 25 thanks to the support of our partnering communities.

Organizationally, this past year has been one of many changes as we bring to reality Regional School Unit 25. It has been a pleasure working with the RSU 25 School Board; and your Town has been well represented by your school board members. I am most pleased to report the efforts of the RSU 25 School Board, who have from the start focused on providing quality educational opportunities to all children in the most efficient manner possible.

As we have all faced challenges with the economic downturn in our country, School Units across the State of Maine are facing significant financial challenges as we plan for the future. We will be faced with many difficult decisions in the year ahead as General Purpose Aid provided by the State of Maine will be significantly reduced. Over the next two years, we will be facing a reduction of general purpose aid of approximately two million dollars if current economic conditions persist and State funding levels decrease. The RSU 25 School Board is cognizant of these challenges and is working to make the necessary adjustments in our educational organization to meet these financial pressures and maintain quality educational programming. We are fortunate to have the RSU structure in place which provides alternatives and opportunities to meet the challenge.

During this current school year, we will complete two very important organizational stepping stones: the completion of a K-12 aligned, School Board adopted, and published curriculum and the Future Search activity which will lead to the development of a shared mission and vision for the school district. These two items will provide the foundation for the development of the structures needed to meet our educational mission.

I thank you for your continued support of education for the children and citizens of Orland, and I appreciate the opportunity to serve your community and the others of RSU 25 as your superintendent of schools.

Respectfully Submitted;

James Boothby

Superintendent

Report of the Orland Principal

The RSU 25 School District comprised of Bucksport, Orland, Prospect, and Verona became a reality as the citizens of the four communities voted for the consolidation. This initial year has produced pros and cons on several issues as board members and administrators seek uniformity in the future directions of this new endeavor.

The Orland Consolidated School is still functioning as a pre-k to grade 8 educational setting. Current total enrollment is at 145 students with a staff of 32 full and part-time teachers, ed. techs, specialists, and support staff. Twelve of our special needs students were transferred to an alternative educational setting in Bucksport to take advantage of the special programs set-up by newly hired SPED staff. This is one of the positives that the RSU 25 system can offer our students. The negative, however, is that we lost 5.5 staff in the process.

OCS said good-bye to Tara Woods, Ruth Grindle, Sheila O'Donnell, Heidi Taylor, Cathy Bartley, and Laura Burbank. All of these individuals worked with special needs students with a high degree of professionalism and compassion. John Craig, 7/8 Science, Social Studies, Math teacher, and coach of many sports retired. John will be missed for his ability to relate to students, both in and out of the classroom.

Sadly, one of our veteran teachers, Robin Bray was forced to resign due to medical problems. Robin will always be known for her strong advocacy for struggling students. As of this report, January 8, 2010, Robin was doing quite well and she even showed a bounce in her step as proof that her strength is returning.

Two new hires made their debut at OCS, Ian Craven replacing Mr. Craig and long-term substitute, Mr. Ron Jackson, replacing Robin as the sixth grade teacher. Both individuals are dedicated educators and they have been well received by the students and staff, alike.

The school received a sparkling new gym floor, as well as a new fire-resistant carpet on the walls. The floor was free due to a faulty sealant product. The Hillyard Company stepped-up and paid for the floor to right the situation. Another plus for the school was correcting the old drainage system in two areas. The flow of water off the roof is now being channeled to a near-by

drain rather than going into the school. Much of this expense was paid for by the State as Jean Sargent and Mike Malenfant applied and received a special grant for projects of this nature.

The OCS grade 3 to grade 8 students, once again, made AYP status after taking the MEA's last spring. This fall, the NECAP's replaced the MEA's as the State sought to save money on assessments by joining with several other New England states. Results of these new assessments are not due back until late January.

As the communities of the new RSU 25 journey down the educational pathway together, the need for collaboration, coordination, and communication will be more paramount than ever as we strive for excellence in an efficiently run school system. I have no doubt, with the professional people available, district wide, our children will receive a quality twenty-first century education. Certainly the essential skills of critical thinking and problem solving are necessary for our children to be successful participants in the future. I have no doubt that under the quality leadership personnel within this new RSU 25 School District, the children of Bucksport, Orland, Prospect, and Verona are in good hands.

Once again, as I do annually, I thank the people of this fine little community of Orland for the privilege of assisting in this very important process of educating their children.

Respectfully submitted,

Ivan Braun, Principal
Orland Consolidated School
