

Town of Orland

Town Report
2012-13

Save the Date... June 28th Orland River Day!

39th Annual Raft Race!

Put your “thinking caps” on & build a raft to “race” down the Narramissic River!

Come Join the Parade!

Parade through the village—
beginning at 10 am

Baked Bean Cook-off!

Enter your best baked
beans - prizes for top
three judges' choices!

**“The Crazy Family Fun
Magic Show” featuring
Danny Baker, Maine’s
Funniest Magician!**

Children’s Games

Spin the wheel, Ring Toss
Match the duck, PLINKO,
and many more!

**Take a chance on
assorted raffles!**

- Food Vendors
- Craft Vendors
- Music

Craft Exhibits & Demonstrations

Observe area artisans
exhibiting their
crafting skills.

Knitting Quilting
Traditional Rug Hooking
Weaving

And much more!

Miss Orland River Day Pageant

Friday beginning at 6:00 pm

Orland River Day Pageant

Girls ages 2-4, 5-7, 8-10, 11-13

Prizes for the top 3 in each group!

Top winner in each category will join the Grand Marshall for the parade!

Orland United Methodist Church 200th Anniversary

Help celebrate the 200th anniversary of the Orland United Methodist Church. Join in assorted activities and find a bargain at their indoor yardsale!

Cannonball Contest

Prizes for 3 age categories

- Prize for Biggest Splash by the guys
- Prize for Biggest Splash by the gals
- Prize for Judges' Choice

River Duck Dash

Watch the ducks dash down the Narramissic!

Try your luck!

Adopt a duck!

Sponsored by the Bucksport Bay Chamber of Commerce

Alewife Run

Come enjoy a leisurely 3.5 mile paddle from the Fish Hatchery to Orland village. Need a boat? Rent one from Castine Kayak for \$20!

Kayak Capsize & Rescue

Castine Kayak will offer this workshop. Learn what you need to know to be a safe paddler.

TOWN OF ORLAND 2012-13

This town report is
dedicated in memory of
Millard Clement
for his many years of
service to the
Town of Orland

The accompanying notes are an integral part of these financial statements.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information for the primary government of the Town of Orland, Maine as of June 30, 2013, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that budgetary comparison information on page 20 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The Town of Orland, Maine has not presented a management's discussion and analysis that accounting principles generally accepted in the United States of America has determined is necessary to supplement, although not required to be part of the basic financial statements.

Other Information

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The other supplemental schedules as listed in the table of contents on pages 21-24 are presented for the purpose of additional analysis and are not a required part of the basic financial statements of the Town of Orland, Maine. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material aspects in relation to the basic financial statements taken as a whole.

Independent Auditor's Report

To the Selectmen
Town of Orland, Maine

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of the Town of Orland, Maine as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

If you need or know someone who may need help checking, replacing batteries, or installing detectors please let us know and we will see that you get help.

We still have difficulty locating addresses when responding to emergencies due to unmarked or improperly marked mailboxes. Please ensure your mailbox is marked with highly visible numbers that stand out which can be seen from both directions of travel on your road, day or night by responders. Not all emergencies are visibly obvious to responders, and a delay in locating you could be devastating to life or property. If you have any questions or need assistance posting your house number, please let us know.

Report of the Fire Department

To our fellow residents of Orland, Greetings.

This year was looking to be one with the fewest incidents recorded in recent memory, until the ice storm. The most numerous type of incident calls we responded to were weather related, most of them right around Christmas. Motor vehicle accidents with injuries came in next then building fires.

Through the Hancock County Mutual Aid Pact, we traveled as far as Sedgwick and Brooksville to assist at fires, as well as received help from many others at some of our own incidents. This pact makes equipment and manpower available when an incident requires additional help beyond what the local department can provide at that time, such as large structure fires or complicated motor vehicle accidents to name a few. We have forged a great working relationship with our mutual aid departments and have trained together on various occasions to increase our combined efficiency.

Our firefighters put in 1100 documented volunteer hours responding to emergencies throughout the past year. Many more hours were given to training, equipment and station maintenance. What makes this significant is that we are one of the last departments in the county that are truly all-volunteer. This means none of our firefighters receive a stipend for the services they provide or calls they respond to.

We had two members successfully complete a basic firefighter course, which taught them the minimum required skills of structural firefighting. One of our members is currently enrolled in the Hancock County Fire Academy.

We were fortunate to receive private grant funding to replace 15 sets of structural firefighting turn out gear. This gear helps protect our fire fighters at fires and accidents, and has a 10 year service life, sometimes much when heavily used or damaged. Our grant to replace the gear saved the town approximately \$20,000.

In March we took delivery of a Ford F-550 Mini-Pumper/Rescue truck built in Island Falls, Maine. The new truck has been very well received by both the department and our neighboring departments in its capabilities. The 1996 truck it replaced was purchased by the Sedgwick Fire Department and was placed in service there recently. The new truck has been designated Rescue 581 and so far has exceeded expectation.

Burn permits are currently being issued on Monday and Friday evenings at the fire station from 6pm to 7pm. On occasion there may be personnel at the fire station that are authorized to issue permits at other times, you can call or stop in to check. We ask for your patience and request you plan ahead for any open burning you may wish to perform.

We strongly urge everyone to ensure they have working smoke and carbon monoxide detectors in their homes, and test them regularly. We recommend replacing the batteries twice a year or whenever you change your clocks for daylight savings time.

In the past, no one thought of recycling computers and other electronics. But these days engineers have taken notice that electronics usually contain a wealth of valuable materials. Plus, recycling almost always means lower net carbon emissions that would normally be emitted while manufacturing a new product. Finally, electronics are made with a sizable amount of lead, cadmium, brominated fire retardants and plastics that can leach toxic breakdown products — that's stuff no one wants in their water supply! Recycling electronics is good for the environment and our local communities.

If you have any questions about whether your electronic device can be recycled at the Buckport Transfer Station, feel free to contact us at 469-7496.

Nationally, approximately 2.8 billion pounds (1.4 million tons) of electronic equipment were recycled in 2006, including 65 million units of computer equipment (CPUs, monitors, and printers). The electronics recycling process yielded 1.3 billion pounds of recyclable materials, more than half of which were metals. Consumer electronics alone are now considered to be approaching more than 3 million tons generated annually.

Paul R. LePage
GOVERNOR

STATE OF MAINE
OFFICE OF THE GOVERNOR
1 STATE HOUSE STATION
AUGUSTA, MAINE
04333-0001

February 24, 2014

Town of Orland
PO Box 67
Orland, ME 04472-0067

Dear citizens of Orland:

As a state, we have taken great strides over the course of the past years.

Growing our economy, decreasing our energy costs, and improving our educational system are the priorities of my administration. Maine needs to create a pro-growth environment that encourages our businesses to create jobs. It is critical that we focus on promoting policies which support and attract new investment. To achieve this, we need to keep taxes low on our families and businesses, and find ways to increase efficiency in government while protecting our most vulnerable citizens.

We have made great progress toward these endeavors. We passed **the largest tax cut in Maine's history**. Two-thirds of Maine taxpayers will get income tax relief, and 70,000 low-income Mainers will no longer pay income tax. My goal is to continue to drive down Maine's income tax.

We are striving to also cut the cost of electricity through our spearheading of a regional effort with Massachusetts, Connecticut and Rhode Island to expand the use of hydropower in Maine. Additionally, Maine is currently one of the fastest states in natural gas expansion.

We have passed legislation that will decrease the cost of health insurance for school districts, allowing more money to be spent in the classroom. Putting students first is important to me. Education is what saved my life, and I want every child in Maine to have the same opportunity I had. With the passage of charter school legislation, hundreds of families now have options for their children.

There's still a lot to do. The recent decision by the legislature to take money from our state's rainy day fund in order to pay revenue sharing in 2015 is fiscally irresponsible. We need government decision makers to act responsibly.

Maine has a great tradition of civic involvement and citizen participation in the decision making process. Thank you for taking the time to become informed and for working with your neighbors to hold government accountable.

It is a pleasure serving as your Governor. If ever I can be of assistance to you or you have any questions or suggestions, I encourage you to contact my office by calling 287-3531 or by visiting our website at www.maine.gov/governor.

Sincerely,

Paul R. LePage

WASHINGTON, DC 20510-1904
(202) 224-2523
(202) 224-2893 (FAX)

United States Senate

WASHINGTON, DC 20510-1904

Dear Friends:

It is a privilege to represent Maine in the U.S. Senate, and I welcome this opportunity to share some of my work from the past year.

Encouraging the creation of more jobs remains my top priority. I have developed a Seven Point Plan for Jobs in Maine, which includes proposals to spur small business investment, ensure robust workforce education and training, reduce regulatory red tape that stifles job creation, support Maine agriculture and manufacturing, and invest in the infrastructure needed to expand our economy. Traditional industries and small businesses remain the backbone of Maine's economy, and innovation will be important for future jobs as well. I have supported Maine's effort to lead the world in deepwater wind technology and was proud when the University of Maine and its private sector partners launched the first prototype this year. This emerging industry has the potential to create thousands of good jobs here in Maine.

BIW remains a major Maine employer and is critical to our national security. I have worked hard to support the Navy's request for a 10th DDG-51 and to continue construction on the DDG-1000s at the shipyard. This year's annual defense policy bill also contains more than 30 provisions to eliminate sexual assault from our military, including several provisions that I authored.

Partisan divisiveness in Washington continues to prevent us from addressing some of our nation's most serious challenges. Gridlock reached a peak in October with the federal government shutdown that pushed our country to the brink of defaulting on its financial obligations and damaged our economy. As the shutdown continued with no end in sight, I presented a proposal I believed both sides could support. Within days, I was leading a bipartisan coalition of 14 Senators that worked night and day to craft a plan to reopen government, avert default, and restart negotiations on a long-term plan to deal with our nation's unsustainable debt of more than \$17 trillion. Known as the "Common Sense Caucus," we will continue to work to develop solutions and bridge the partisan divide.

Earlier this year, across-the-board federal spending cuts known as "sequestration" took effect. These indiscriminate cuts jeopardized priorities from national security to medical research and stand in stark contrast to the thoughtful and thoroughly debated spending priorities set at town meetings throughout Maine. To bring some Maine common sense to this process, I authored bipartisan legislation to allow federal agencies to set priorities in administering the required cuts and wrote a new law to ensure that sequestration would not disrupt air travel, which plays such an important role in fueling Maine's tourism economy.

I have also enjoyed my work as the ranking member of the Senate Special Committee on Aging where, with Senator Bill Nelson of Florida, we work on issues of critical importance to Maine seniors. The committee has created a toll free hotline (1-855-303-9470) to make it easier for senior citizens to report fraud and scams and to receive assistance. I also serve as the Senate Co-Chair of the task force on Alzheimer's, a devastating disease that takes a tremendous personal and economic toll on more than five million Americans. Better treatment for Alzheimer's and ultimately finding a cure should be an urgent national priority.

Finally, I am proud to reflect our famous Maine work ethic by completing another year of service without missing a single roll call vote. I have not missed a vote since I was elected – a streak that stands at more than 5,300 in a row.

May 2014 be a good year for you, your community, and our great State of Maine.

Sincerely,

Susan M. Collins
United States Senator

Report of the Animal Control Officer

Selectmen and Citizens of Orland:

This year was a busy year with lots of complaints. I handled 50 complaints this year. The complaints ranged from barking dogs to animal trespass. The State does not have a law against barking dogs under animal welfare regulations; therefore a town ordinance is necessary to pursue barking dog problems. Orland does have a provision for barking dogs in their ordinance. Enforcement of this ordinance will have to be accompanied by a written complaint and the person making a complaint must be willing to testify in court.

A change to the animal trespass law allows a summons to be issued on the first complaint now; not waiting or giving an owner 12 hours to remove trespassing animals anymore. Animal trespass only applies to livestock and does not apply to dogs or cats.

Please make sure to get your pets vaccinated against rabies and make sure your dogs are licensed with the Town Clerk's office.

Feel free to contact me with any questions at 469-3969 or via email at fire4utec@aol.com.

Respectfully submitted,
Robert L. Gross, Animal Control Officer

Town of Orland Maine
25 School House Rd
Orland, Maine 04472

Dear Friends,

I was sworn into office as your U. S. Senator in January of 2013 and immediately began exploring how I might use technology and staff to provide you with easier and expanded access to federal services. In addition, I wanted to save you time and the cost of traveling long distances to get to our offices. It seemed right and fair I should also reduce my costs to save some taxpayer dollars since towns, citizens and businesses are being forced to do the same.

Providing greater access to me and federal government services through my staff is a priority I am committed to. In June of 2013 I initiated **Your Government Your Neighborhood** a plan which reduces costs, complements the locations offered by other delegation members and expands services. Every other week I send my staff to towns throughout the state and each month all 16 Maine counties are served by them. On a regular basis my staff hold constituent hours locally providing citizens with assistance. As of this month, 70 communities have had service.

I am honored to be serving on four committees: Armed Services, Intelligence, Budget and Rules. These appointments provide the opportunity to take important and substantial action on behalf of Maine. My position on the Armed Services Committee allows me to honor our obligations to servicemen, women and veterans, as well as ensure the strength, efficiency, and sustainability of our military. Our intelligence Committee plays a pivotal role in identifying and understanding security threats around the world. My goal is to do everything I can to protect both American lives and the freedoms we enjoy. As a new member of the Budget Committee, I am working to ensure that necessary spending is tempered with fiscal responsibility. One of the most serious issues we must address is the inability of Congress to get things done. My position on the Rules Committee allows me to push for procedural reforms to help move us forward.

Your individual perspectives are critical in helping me represent the diverse interests of Maine. Do not hesitate to share any thoughts, questions, or concerns that you may have. You can visit my website at <http://www.king.senate.gov> and provide your input there, or call my Washington office at (202) 224-5344 or our toll free in state line at 1-800-432-1599. Our local numbers are Augusta (207) 622-6292, Presque Isle (207) 764-5124 and Scarborough, (207) 883-1588.

I appreciate the opportunity to serve you and update you on my activities. I am determined to be a strong voice for the people of Maine.

Sincerely,

ANGUS S. KING, JR.

January 2014

Dear Friends:

Last year saw some of the most bitterly partisan political fighting in Washington in recent memory. However, the gridlock in Washington has not slowed my efforts to fight for Maine's businesses and industries on the national and international level. I will continue to visit and speak with Maine's small businesses and manufacturers to hear firsthand about their successes and challenges. This is an important part of my ongoing "Make it in Maine" agenda which consists of initiatives to boost domestic manufacturing and support job growth in our state.

In 2014, it will be my great honor to continue serving our nation's veterans as the Ranking Member of the House Veterans' Affairs Committee. Over the course of the last year, I worked with Representative Jeff Miller (R-Florida), the committee's chairman, to pass a number of bills important to veterans. Some that we passed would reduce the VA's disability claims backlog, help get veterans their compensation faster, and improve training and educational opportunities. One critical measure we advanced through the committee would ensure that all VA programs receive funding a year in advance so no veterans will have to worry about services being disrupted.

While I am proud of these accomplishments, I know there is still so much to do. I will continue to fight for new advances in areas such as veteran employment, veterans' health care, and the ongoing concerns with the VA claims backlog.

I believe Washington is at a crossroads. There are many members of Congress on both sides of the aisle that truly want to get things done for the people they represent. Congress needs to work together to get things done and make Washington work again. I continue to be committed to making that happen, and continue to regularly meet with Democrats, Republicans, and Independents to forge a way forward.

As we move forward into a new year, my highest priority remains ensuring that Mainers receive timely and quality constituent services. Whether you have a specific concern with a federal agency or need help connecting to resources, please don't hesitate to reach out to me at any of my offices. I also encourage you to visit my website (www.house.gov/michaud), where you can email me as well as connect with me on Facebook and Twitter.

Thank you again for the opportunity to represent you in Congress.

With warmest regards,

Michael H. Michaud
Member of Congress

OFFICE OF
MICHAEL H. MICHAUD

Planning Board activity for the fiscal year reflected the low level of economic activity in the area. The Board reviewed and granted only three Site Plan Review permits, and one of those was for the change in use of the Orland school building.

We also authorized the CEO to issue two Shoreland Zoning permits for structures to be relocated to new foundations. And, we approved a minor revision to a subdivision on the Hatchery Rd.

During the year we worked on revising the Site Plan Review Ordinance. The current ordinance dates to 1978 with some revisions in 1996. Work on this continues.

The Board members, and indeed the entire community, were deeply saddened by the death in December of Millard Clement who had been Chairman of the Planning Board for many years.

Respectfully submitted,
Jack MacBrayne
Chairman of the Planning Board

PLUMBING PERMIT: This permit must be obtained by anyone who is going to do any type of plumbing either on the interior or exterior of a new or existing building. The permit must be obtained from the Plumbing Inspector. A permit fee is charged and the amount depends on the number of fixtures, which will be installed. Once the permit has been obtained and the work completed, the Inspector must be notified so that he can inspect the work done. Plumbing permits are valid for twenty-four months after issuance. If a plumbing permit is being requested for the purposes of installing a subsurface disposal system, the applicant will be required to obtain the services of a certified soils scientist to design the system prior to seeking the permit. The Plumbing Inspector can be contacted for suggested names of certified soils scientists who serve the Orland area.

HIGHWAY ENTRANCE PERMIT: This permit must be obtained by anyone who is proposing to construct any driveway entrance or approach within the right of way of any town road. This is also true if the grade or location of any existing driveway entrance will be changed. Applications are obtained from the Road Commissioner. A similar permit has to be obtained from the Department of Transportation if the new entrance is proposed within a state owned right of way.

ELECTRICAL SERVICE FORM: Anyone who is planning to install a new electrical service will be required by the utility company to obtain a signed form from the Code Enforcement Officer indicating that the property on which the improvements are to be made is not in violation of subdivision requirements and a shoreland zoning permit has been obtained if required. There is no fee for this permit. Application forms may be obtained from the utility company.

WIRELESS TELECOMMUNICATIONS FACILITIES PERMIT: This permit is required for the location, construction and expansion of wireless telecommunication facilities. Permit approval must be obtained from the Planning Board.

NOTE: The above is solely informational and is not meant to represent any ordinance or state law in its entirety. Other state and federal regulation may apply to the same project. It is your obligation to obtain all other necessary permits before commencing work.

Dear Friends and Neighbors,

May 2013

I sincerely thank the residents of District 41 for entrusting me as your State Representative. The work is hard and my schedule is certainly full; however, the efforts are rewarding. I serve on the Transportation committee. I enjoy the work this committee does. It goes without saying that with one of Maine's three ports located in our district and many miles of State highway the decisions made by this committee can have huge impacts to our communities. I am very proud of some of the accomplishments we attained in Transportation. Over the past two years our committee unanimously passed a bill to allow for family members of men and women who gave the ultimate sacrifice in military combat to display the Gold Star license plate on their vehicles. We worked with the Maine Department of Transportation to expand the total miles of roads that are being paved each year. We also passed a series of bills related to cleaning the problems associated with the mismanagement of the Maine Turnpike Authority. Your input as consumers and constituents will be greatly appreciated as we work to make the Transportation Committee truly work for Maine people.

One of the only things about being a State Representative I do not like is negative partisan politics. During my campaign for re-election much money was spent against me to smear my record and my reputation. I am proud to have resisted the outside influence of party and special interest money to run a negative and dishonest campaign. I was re-elected to the Maine Legislature on the promise to represent you and protect our communities to keep them not only the way life should be but the way we as residents want them to be. To keep this promise, I will be seeking your input regularly and want to hear from you with your comments and concerns, please call me anytime at 548-6429 or email at jgillway@yahoo.com to keep me updated on those concerns. If you would like to be added to my email update list, you can do so by emailing me directly with your request. Again, thank you for giving me the honor of serving you in Augusta!

Respectfully yours,

A handwritten signature in black ink, appearing to read "James S. Gillway".

James S. Gillway
State Representative

District 41 Frankfort, Orland, Prospect, Searsport, Stockton Springs and Verona Island

Report of the Board of Selectmen

To the Citizens of the Town of Orland;

Due to the changeover to fiscal year, there was no Town Report for 6 month period of 2012. All of the items from this changeover are working out well.

In review:

- Congratulations to our Tax Assessor Betty Chavaree on her retirement this year after 41 years on the Board. She will be missed. Rhonda Clement was elected as the new Assessor.
- We accepted the resignation of Judy Jenkins as Code Enforcement Officer and hired Mike Falvey as CEO.
- We have one monthly rental of a unit at the Community Center and the conference room and gym are being frequently rented.
- The Historical Society continues to expand and promote Orland's heritage. We are proud of their hard work.

Some of our next year's projects are:

- The secondary sewer treatment upgrade with Bucksport
- Committee involvement to market the rental units and commercial kitchen at the Community Center
- Grant applications for improvement of sewer flowage around the town.
- Seeking more volunteers to join in the events for the Orland River Day.

Respectfully submitted,
Edward Rankin, Sr., Chairman
Ralph Gonzales
Lester Stackpole

Application Procedures

In order to provide information to anyone who is planning a project (new or old) in Orland, outlined is a brief description of those permits, which may be required. Unless otherwise noted, applications are available at the Town Office. A \$5.00 fee is charged for copies of any of the ordinances.

SITE PLAN REVIEW PERMIT: This permit is required for all development proposals for establishment, alterations, or substantial enlargements of commercial, retail, industrial, institutional buildings and multiple family dwellings consisting of three or more units. Permit approval must be obtained from the Planning Board. A fee is charged.

SUBDIVISION REVIEW PERMIT: Subdivision review is required whenever three or more units are developed or any one lot is divided three or more times in any five-year period. Approval for a subdivision must be obtained from the Planning Board. The application fee is dependent upon the number of units or lots.

SHORELAND ZONING PERMIT: This permit must be obtained by anyone who proposes to construct, modify, enlarge, or change the use of any building located within 250' of the shoreline or any other area as designated on the official shoreland zoning map, which is located at the Town Office. This permit must also be obtained by anyone who proposes any changes to the land, such as clearing, erosion control, etc. within those designated areas. Permits are issued either by the Code Enforcement Officer or the Planning Board. The Code Enforcement Officer makes the determination as to who issues the permit. Whenever a shoreland zoning permit is requested for a new or expanded building, a copy of a plumbing permit must be attached to the application.

FLOOD HAZARD AREA PERMIT: This permit must be obtained by anyone who plans to construct, relocate, replace, enlarge, or modify any building which is located in the Special Flood Hazard area as designated by the National Flood Insurance Act of 1968, such map being located at the Town Office. The Code Enforcement Officer issues this permit.

Orland Fish Committee 2012-13

A very warm, but rainy spring got the alewife season off to a slow start. The Orland fish way was removed for repairs by Wardwell Construction & Trucking on April 11th. The baffles in the small fish way were welded by Larry Dakin. Wardwell Construction returned the fish way to the river on April 19th. Fish were seen below the dam during this time period, but they were unable to get up into the river. We tried to open the large gate on the Orland dam an hour before high tide and kept it open for a couple of hours. Few fish were able to get over the dam due to the pressure of the water going over the dam.

April 23rd the rains started. We had 11 1/2 inches of rain in six days. The gates at Toddy, Alamoosook and the Orland River were all open several feet. Jake Sutherland had trouble with the hedge due to the high water. Wildlife always benefit from a stalled run. Seals, Osprey and eagles were spotted below the dam.

The middle of May proved to be better for the alewife harvest. A total of 3,455 bushels were caught. Nineteen hundred and thirty-four bushels were sold for \$18.00 each and fifteen hundred and twenty-one bushels were sold for \$20.00 each. The Town's share of the proceeds was \$7,570.00.

After the run, the Fish Committee met with the Town's Selectmen and Jake Sutherland to discuss replacing the fish shack. The work was done in the spring of 2013. Repairs were also made to the Orland dam in the fall of 2012, including new cement and gravel.

Once again, thanks to Wes Shute of Verso Paper Company who maintains the water levels for both Toddy and Alamoosook Dams.

Report of the General Assistance Administrator

The Selectmen adopted the General Assistance Ordinance (prepared by Maine Municipal Association, August 2005) on the 12th day of October 2006. They also adopt the Appendices (A-C) on a yearly basis to keep up with the State mandates. The Ordinance helps the needy to be responsible by living within their means. Applicants must show that they are attempting to improve the present situation which has caused them to seek assistance.

For fiscal year 2012, we had an appropriation of \$12,800.00, expenses of \$6,304.72, reimbursement of \$6,193.81, and payroll expense of \$1,050.00; leaving a balance of \$11,639.09. The balance was carried forward to the fiscal year 2013. The reason for a large refund was due to a client receiving back pay for Social Security and we were refunded the amount he received for assistance during that time. The payroll expenditure was for \$25.00/week (\$1050.00) to have an individual process the applications.

Respectfully submitted,
Ralph Gonzales
General Assistance Administrator

Report of the Town Clerk & Tax Collector

As in past years, I wish to thank the citizens of the Town of Orland for their support. Being your Town Clerk is very special to me and I am amazed at how fast the years have gone by! Being the first contact most citizens have with the Town, the Clerk's office strives to give the best service possible. We can not always answer a person's question; however, we usually can refer the person to the appropriate department.

In the clerk's office, we licensed 258 dogs in 2012-13.

Please remember that a state-mandated \$25.00 late fee applies to re-registrations of dogs after January 31st of any given year.

We are still working with the MOSES program for hunting/fishing licensing and recreational vehicle registrations. The licenses are completed and the State knows instantly that a customer has their license and/or registration. In 2012-13, we registered 86 snowmobiles, 139 ATVs, and 345 boats. We also processed 528 recreational licenses. In 2012-13, we processed over 3000 motor vehicle transactions.

On the tax collection side, we have moved from a calendar year to a fiscal year. We have changed from a single payment cycle to a semi-annual payment cycle. Therefore, the first payment is due by September 30th and the second payment is due by March 31st.

With times becoming more difficult, we understand that finding the money to pay property taxes is not always easy. ***Please be aware that taxes can be paid on a monthly basis instead of coming up with the lump sum in September and March. If you have fallen behind in your taxes, please consider making a payment arrangement with the Board of Selectmen. These arrangements call for a mutually agreed upon amount to be paid monthly.*** Call the office if you are interested.

Respectfully submitted,
Connie L. Brown, CMMC

The Orland Dam Committee is planning to do additional bathymetric survey work downstream from State Route 175 to the Orland Dam, including subsurface conditions to determine whether channel bed material is bedrock or potentially mobile cobble/boulder fill material. The purpose of this study is to predict what the water level in the village area would be at low tide if the dam were removed. The Dam Committee is also planning several educational presentations on the results from the Alternative Feasibility Study. Future decisions on the various alternatives will ultimately be decided by the selectmen and towns people.

John Barlow, Chair
Orland Dam Committee

Installing the repaired fish way 2012

Orland Dam Committee 2012-13

During the past three years a committee formed by the Town's Selectmen in November 2010 has been overseeing a Feasibility Study of the Orland Dam. The Head of Tide Dam located just below the Rt. 175 Bridge in the Orland Village forms the fresh water impoundment in the center of Orland Village extending approximately 2.6 miles upstream to the Upper Falls Road. The project is being funded by the Habitat Restoration Grants Program, a partnership between the Gulf of Maine Council on the Marine Environment and the National Oceanic and Atmospheric Administration (NOAA); the US Fish and Wildlife Service (USFWS); The Town of Orland; Verso Paper Company; the Davis Conservation Foundation; and the Maine Corporate Wetlands Restoration Partnership. The project work was performed by Stantec Consultant Group in coordination with Plisga & Day Land Surveyors of Bangor, Maine. Additional components of the study are being performed by the Dam Committee.

A Report was submitted by Stantec on May 24th, 2013. The report examines five alternatives:

- No Action
- Dam and Fishway Rehabilitation
- Dam and Fishway Modification
- Dam Removal
- Nature-Like Fishway

Included in the study are the hydrology, hydraulics and physical processes, ecological resources, infrastructure, cultural resources and socio economic and aesthetic factors. The Report gives opinions of probable cost, permitting required for each of the alternatives and recommendations for additional studies. The full report is available at the Orland Town Office, Bucksport Free Library and on line at <http://www.orlandme.org/Orland%20Dam.html>.

Replacement Systems	0
Replacement Septic Fields	20
Replacement Septic Tanks	1
Sewer Hook-ups	3
Internal Plumbing Permits	15
Complaints	21

Respectfully Submitted,
Gerald Guse, LPI

Report of the Assessors

The Town's total valuation went up from \$197,075,460.00 in 2012/2013 to \$198,102,200.00, in 2013/2014, without exemptions. New listings include 4 new homes, 1 mobile home, 3 seasonal properties and 8 business expansions and 1 new commercial property.

The Assessors processed 103 real estate transfers from April 1, 2012 to March 31, 2013. Your tax bill showed that due to State Municipal Revenue Sharing and State Aid to Education, each bill has been reduced by 25%.

The Maine Revenue Service issued an update pertaining to Property Tax Abatement and Appeals Procedures, in August of 1993. If a taxpayer believes that the valuation of his or her property is too high, the taxpayer's only remedy is to submit a written application to the Assessors for an abatement within 185 days of the commitment date of the tax in question, stating the grounds for abatement.

Homestead Exemption Applications are available at the Town Office for the 2014 tax year. If you did not qualify last year, you may reapply. If you did qualify last year, you do not need to apply again. We granted 583 Homestead Exemptions for the year 2012/2013. Due to Legislative Changes, the Homestead Exemption is now \$10,000.00 before adjustment to the State Certified Ratio, however, the state only reimburses 50% of that amount.

The mil rate for the 2012/2013 tax year increased from .014 to .0142.

The Assessors will be in session on or around April 1st each year to provide Declaration of Estate Forms. Declaration of Estate Forms are for the purpose of providing the Assessors with any changes made to your property during the year. The exact dates of these sessions will appear in local newspapers and will be posted at the Town Office.

Respectfully submitted,
Mary E. Hauger CMA Chairman

Orland Historical Society 2012-13

The society had a successful year in our new home on School House Road. We held monthly meetings at the museum at 7PM on the 4th Wednesday of the month from April through October. At several meeting, we enjoyed a pot luck dinner before our business meeting.

The museum was open to the public in July and August on Wednesday and Saturday afternoon from 2 to 4 PM.

The society held a great open house in late August 2013 that was very well attended. In conjunction with the Open House in August, we held a yard sale and an antique car, truck and tractor show. The open house and antique vehicle show was so successful we are planning another similar event for Saturday August 23, 2014.

We continue to make improvements to the museum and perform minor maintenance to maintain the facility for the long term. This past year we had the North side wood trim scraped and painted.

We continue to accept additional donated or loaned historical artifacts for display in the museum to preserve the history of our town. As we expand our collections, we plan to rotate items so all artifacts will be available for public viewing.

The society welcomes groups to schedule tours of the museum if they wish to view our collections. This past year we hosted a group tour for the Senior College folks from the Ellsworth area. We recently had the local Orland/ Bucksport girl scout troop come in for a visit to learn more about the town history and view our collections.

Orland Historical Society continues to encourage folks to join the society and participate at our monthly meetings and volunteer activities. We want to thank the town of Orland for its continuing support of OHS to preserve our past for future generations to enjoy.

Respectfully submitted
Roger Wood
OHS President
